SiteRx

Are you interested in learning more about clinical trials?

What is a clinical trial?

A type of research study that evaluates the potential benefits and risks of new medications or interventions for treating disease.

Who is SiteRx?

As part of our commitment to providing you with as many care options as possible, we are offering enhanced access to clinical trials using a company by the name of SiteRx. They help providers identify potential clinical trial matches for patients.

Potential benefits of a clinical trial

- Access potential treatments before they are publicly available.
- Your participation may help advance medicine for a specific disease or condition.
- During the clinical trial, you will receive medical oversight and testing in addition to the care you receive from your doctor.
